AMG510-22G SERIES 26 PORT COMMERCIAL GRADE MANAGED LAYER 2+ SWITCH

Commercial Ethernet Solutions

AMG's fully managed layer 2+ Ethernet switches provide 100Mbps and Gigabit Ethernet switching for commercial network applications. Available with 22x RJ45 Gigabit ports and 2x Gigabit RJ45/SFP Combo ports supporting optional 30W PoE+ along with 2x 100Mb/1Gb SFP Ports.

[AMG510-22G Series]

/ OVERVIEW

AMG510 series layer 2+ managed Ethernet switches are designed for 19inch rack or desktop mounting within commercial grade applications. The AMG510-22G series has 22 Gigabit Ethernet RJ45 ports and an additional 2 Gigabit RJ45/SFP combo ports with optional IEEE 802.3at compliant 30W PoE+ as well as 2 multi-rate SFP only ports that support both 100Mb and 1Gb speeds for maximum flexibility.

AMG's industry leading virtual stacking capability greatly simplifies the installation and on-going site maintenance by providing the users with a single web GUI interface from which all switches within the virtual stack can be configured and monitored eliminating the need for multiple browser tabs and having to remember many IP management addresses. The virtual stack can be used between all AMG510 series models even when installed in dispersed physical locations.

The AMG510 series support a wide range of management functions as well as Rapid Spanning Tree and Multiple Spanning Tree protocols for network redundancy. IGMP functionality is supported to handle the multicast traffic which is commonly used in IP CCTV deployments.

/ FEATURES

- 19inch 1U rack or desktop/shelf mount
- O°C to +50°C temperature for commercial grade applications
- 90-264VAC mains power input
- Compliant with all IEEE 802.3 speeds (i/u/ab/z)
- Dual Speed SFP ports (supporting 100Mb & 1Gb speeds)
- Supports RSTP, MSTP, SNMP v1-3 and IGMP v1-3
- Port trunk functionality available with LACP
- IEEE 802.1x port security enabled
- Supports 9.6K bytes jumbo frames
- Virtual Stacking supported
- Layer 3 Static Routing
- AMG 3 Year Support Warranty
